September, 2011

Dear 7th Grade Students & Parents:

As you know, High School Articulation is a very important part of the year for 8th grade students. It is extremely important for you to be aware that **the grades you are receiving now and throughout 7th grade will be the single most important factor when high schools decide which students will be accepted for admission to their programs. 7th grade standardized test scores and attendance and lateness will be the other most significant determining factors.**

We will be working with 7th grade students beginning in March to help them understand the entire high school application process, and we will have a meeting for 7th grade parents in March so that they may better understand this process in order to help their children.

Sincerely,

The Guidance Department
