Table 1 - Comparison of Audition (LaGuardia), SHSAT (8 Specialized H.S.), and Multi-Factor (non-Specialized) School Admissions

Data for non-specialized Schools is grouped into SAT-sorted tiers of approximately 15,000 H.S. seats (each tier/bracket represents 5% of all H.S. seats).

The yellow highlights compare SHSAT-admission schools to a matched sized group of the highest performing non-specialized (multi-factor admission) schools.
